Hi Elizabeth- I understand the need for an extension given the time period involved. Yes, a total of 60 days will work for us too. I am not in my office today but will be tomorrow and can check our files and call or email you. I appreciate your contacting me so soon after receiving the request. Call or email me whenever you have questions. Thank you.

Best-
Mary

Subject: Beck's Lake Superfund Site (Site)

Mary,

Good afternoon. Thank you for your return call. I received your voice mail message on Thursday, but I was also out of the office on Friday. The purpose of the call was first, to request an extension of time for Indiana Michigan Power Company (I&M) to respond to the Request for Information. As you know many of the information requests refer to documents and information dating back at least 60 years. I&M is now evaluating its records at various and former company locations for possible responsive information. We are realizing that 30 days is insufficient to locate, and, if available, review and copy responsive information and then prepare responses to the individual requests. At this time, we request an additional 60 days in which to respond to the Beck's Lake Superfund Site information request. We believe this will be a sufficient extension at this time.

Second, I was hoping to speak with you about whether EPA had information linking or connecting I&M to the Site or other information that might assist I&M in locating records. If such information is available, would EPA share that information or should I&M request the information pursuant to FOIA .

As we continue our evaluation of the information request and records other questions may arise and I will contact you as they do.

Thank you for assistance. I look forward to working with you on this matter.

Sincerely,
Elizabeth Gunter
Counsel for I&M
